

# WE ARE LOOKING FOR ADULTS WITH AUTISM & THEIR PARENTS OR CAREGIVERS

## ***What?***

A research study to understand the experience of entering adulthood and employment for adults with Autism Spectrum Disorder (ASD) and their parents or caregivers, conducted by Jessica Bischoff, Occupational Therapist, as part of completing her Occupational Therapy Doctorate degree at Salus University.

## ***Why?***

We hope to gain further information to help contribute to future programs aiming to improve support services for adults with ASD

## ***Who can participate?***

To participate you must be either:

- An adult with an Autism Spectrum Disorder (ASD), between the age 22-37 years old, and have basic conversational skills
- Be a parent, guardian or caregiver of an adult with Autism Spectrum Disorder
- Note: All participants in this study must have access to a computer, video software, and wifi connection

## ***What would be my commitment?***

- One pre-screen session over the phone for about 15 minutes
- One online session over video chat for about an hour

## ***What will I receive for participating?***

- All participants will be given a chance to enter a raffle for a \$50.00 Amazon gift card
